

DoView Tool B22 - Representing Citizen-Experience Maps As DoView Strategy Diagrams Explainer

Citizen-experience maps can be used to specifying citizen outcomes. You can represent them as a DoView strategy diagram. 'A' below is a DoView citizens-experience map for making it easier for all citizens to interact with government in a digital world. 'B' is a citizen-experience map for an example of where government wants to intervene with a particular group. In this case, preventing young offenders from continuing to offend with the hope that by doing so, this will reduce likely government expenditure in the future.
