

DoView Tool B4 - 'Archery Initiative' DoView Strategy/Outcomes Diagram Example

Below is a simple fabricated example of a DoView strategy/outcomes diagram. It is conceptually similar to actual DoView strategy/outcomes diagrams used in practice. On the right of such diagrams, you can see the final outcome(s), and on the left, all of the steps it is believed are necessary to achieve the high-level outcome(s) set out in a simple 'This-Then' format.
