

DoView Tool G1 - Types of Evaluation Mapped Onto the DoView Planning Framework

G1

Below is the DoView Planning Framework (D1) showing the different types of evaluation related to each of the components. Overall evaluation approaches such as Indigenous Evaluation, Utilization-focused Evaluation, and Empowerment Evaluation can be used throughout each of these components. This tool can be included in evaluation documentation (e.g. Requests for Proposals RFPs) to make sure that everyone is talking the same language regarding evaluation types.
