

DoView Tool G25 - DoView Monitoring and Evaluation (M&E) Plan

G25

The typical sections included in a DoView M&E Plan are shown below. An example of a DoView M&E Plan is available at DoViewPlanning.Org.

Introduction: The Project – Describes the facilitator role, region and purpose, then points to the strategy diagram as the project “road map”.

Introduction: What’s a strategy diagram? – Explains the DoView visual logic model and its symbols (@ = controllable indicator).

Section 1: DoView strategy/outcomes diagram – Shows the complete pathway of how project activities lead to biodiversity outcomes.

Section 2: Indicators – Maps draft indicators onto the diagram and shows which ones are directly attributable to the project.

Section 3: Evaluation questions & impact evaluation assessment – Shows evaluation questions mapped onto the DoView diagram, the type of evaluation they are, and provides the Impact Evaluation Feasibility Check analysis of the seven possible impact evaluation design types.

Section 4: Evaluation projects – Lists the evaluation projects and which evaluation questions they answer.

Section 5: Questionnaire wording – Discusses the interview and survey questions that will be used in the evaluation.

Section 6: Evaluation management – Outlines governance, contractor roles and the ongoing use of the DoView strategy/outcomes diagram within the evaluation.

Section 7: Results reporting – Proposes traffic-lighting the strategy diagram to highlight achieved boxes and problem areas in the final report.
