

DoView Tool H3 - Deriving a Balanced Scorecard Format From a DoView Strategy Diagram Explainer

Indicators can be located from the relevant DoView strategy/outcomes diagram and then tagged with the type of Balanced Scorecard indicator they are (shown in B below). They can then simply be rearranged under the Balanced Scorecard indicator headings to provide an Balanced Scorecard report (in A below). This example uses the 'Archery Initiative' example (B4).

A

Financial	006 Cost for firing each arrow@ #Financial perspective	011 Money saved by arrows hitting the target #Financial perspective
Customer perspective	009 Number of arrows hitting the bull's-eye per hour #Customer perspective	
Internal business process	002 Average time to remove an arrow from quiver @ #Internal business process	004 Percent occasions bulls-eyes accurately identified @ #Internal business process
Internal learning and growth	001 Percentage archers with Archery Degree @* #Learning and growth	005 Number of arrows fired per hour @ #Internal business process

B

* @ = Controllable indicators
