

DoView Tool H4 - Deriving Results-Based Accountability (RBA) Format From a DoView Strategy/Outcomes Diagram Explainer

Indicators can be located from a DoView strategy/outcomes diagram and then tagged with the type of Results Based Accountability (RBA) indicator they are (in B below). Then they can simply be rearranged under the Results Based Accountability indicator headings to provide an RBA report (in A below). This example uses the 'Archery Initiative' example (B4).

A	How much did we do?	📊 005 Number of arrows fired per hour @ #How much did we do?		
	How well did we do?	📊 002 Average time to remove an arrow from quiver @ #How well did we do?	📊 006 Cost for firing each arrow@ #How well did we do?	📊 003 Average distance bowstring pulled back @ #How well did we do?
	Is anyone better off?	📊 009 Number of arrows hitting the bull's-eye per hour #Is anyone better off?		
B	Well trained archers	Arrows taken out of quiver efficiently	Correct bull's-eye accurately identified	
	Good quality bows	Arrows correctly notched onto the bowstring	Bow lined up with bull's-eye	Sufficient number of arrows fired from bow
	Arrows sharp enough	Bowstring pulled back far enough	Sufficient adjustment to direction of arrows to allow for cross-winds	Arrows get past any barriers put up in the way
	Arrows light enough that they can potentially reach the bull's-eye			Arrows still heading in the right direction after passing any barriers
				Sufficient number of arrows still heading in the right direction three-quarters of the way up the range
				Sufficient arrows hit the bull's-eye

001 Percentage archers with Archery Degree @* #Learning and growth

002 Average time to remove an arrow from quiver @ #How well did we do?

003 Average distance bowstring pulled back @ #How well did we do?

004 Percent occasions bull's-eyes accurately identified @ #Internal business process

005 Number of arrows fired per hour @ #How much did we do?

006 Percent arrows get past barriers

007 Percent arrows still heading in the right direction after passing any barriers

008 Percent arrows still going three-quarters up the range

009 Number of arrows hitting the bull's-eye per hour #Customer perspective
